

Meltf-Flox

Nomenclature	C57BL/6Smoc- <i>Meltf</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Meltf	Synonyms	MTf, Mfi2, CD228
	NCBI ID	30060
	MGI ID	1353421
	Ensembl ID	ENSMUSG00000022780
	Human Ortholog	MELTF

Model Description

These mice carry loxP sites flanking target exons of Meltf gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Meltf gene.

*Literature published using this strain should indicate: Meltf-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
