

Vil1-Flox

Nomenclature	C57BL/6Smoc- <i>Vil1</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Vil1	Synonyms	Vil
	NCBI ID	22349
	MGI ID	98930
	Ensembl ID	ENSMUSG00000026175
	Human Ortholog	VIL1

Model Description

These mice carry loxP sites flanking target exons of Vil1 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Vil1 gene.

*Literature published using this strain should indicate: Vil1-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
