

Cblif-Flox

Nomenclature	C57BL/6Smoc- <i>Cblif</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Cblif	Synonyms	IF, Gif, INF, AV073125
	NCBI ID	14603
	MGI ID	1202394
	Ensembl ID	ENSMUSG00000024682
	Human Ortholog	CBLIF

Model Description

These mice carry loxP sites flanking target exons of Cblif gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Cblif gene.

*Literature published using this strain should indicate: Cblif-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
