

Il15-Flox

Nomenclature	C57BL/6Smoc- <i>Il15</i> ^{em(flox)/Smoc}
Cat. NO.	NM-CKO-220626
Strain State	Sperm cryopreservation

Gene Summary

Gene Symbol Il15	Synonyms	IL-15; AI503618
	NCBI ID	16168
	MGI ID	103014
	Ensembl ID	ENSMUSG00000031712
	Human Ortholog	IL15

Model Description

These mice carry loxP sites flanking exon 4 of Il15. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Il15 gene.

*Literature published using this strain should indicate: Il15-Flox mice (Cat. NO. NM-CKO-220626) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
