

Cldn6-Flox

Nomenclature	C57BL/6Smoc- <i>Cldn6</i> ^{em(flox)/Smoc}
Cat. NO.	NM-CKO-230166
Strain State	Sperm cryopreservation

Gene Summary

Gene Symbol Cldn6	Synonyms	AL024037
	NCBI ID	54419
	MGI ID	1859284
	Ensembl ID	ENSMUSG00000023906
	Human Ortholog	CLDN6

Model Description

These mice carry loxP sites flanking exon 3 of *Cldn6*. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Cldn6* gene.

*Literature published using this strain should indicate: Cldn6-Flox mice (Cat. NO. NM-CKO-230166) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
