

Fcgr1-Flox

Nomenclature	C57BL/6Smoc- <i>Fcgr1</i> ^{em(flox)/Smoc}
Cat. NO.	NM-CKO-220625
Strain State	Sperm cryopreservation

Gene Summary

Gene Symbol Fcgr1	Synonyms	CD64; IGGH AFC; AI323638; AV092959; FcgammaRI
	NCBI ID	14129
	MGI ID	95498
	Ensembl ID	ENSMUSG00000015947
	Human Ortholog	FCGR1

Model Description

These mice carry loxP sites flanking exon 4-6 of Fcgr1. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Fcgr1 gene.

*Literature published using this strain should indicate: Fcgr1-Flox mice (Cat. NO. NM-CKO-220625) were purchased from Shanghai Model Organisms Center, Inc..
