

Grxcr1-Flox

Nomenclature	C57BL/6Smoc- <i>Grxcr1</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Grxcr1	Synonyms	pi, tde, Tg(Eno2-Gabrb3)0370Brll
	NCBI ID	433899
	MGI ID	3577767
	Ensembl ID	ENSMUSG00000068082
	Human Ortholog	GRXCR1

Model Description

These mice carry loxP sites flanking target exons of Grxcr1 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Grxcr1 gene.

*Literature published using this strain should indicate: Grxcr1-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
