

Sgcd-Flox

Nomenclature	C57BL/6Smoc- <i>Sgcd</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Sgcd	Synonyms	35DAG, AI504364, AW547581, SG-delta, delta-SG, A530047J11Rik
	NCBI ID	24052
	MGI ID	1346525
	Ensembl ID	ENSMUSG00000020354
	Human Ortholog	SGCD

Model Description

These mice carry loxP sites flanking target exons of Sgcd gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Sgcd gene.

*Literature published using this strain should indicate: Sgcd-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
