

Desi1-Flox

Nomenclature	C57BL/6Smoc- <i>Desi1</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Desi1	Synonyms	DeSI-1, Pppde2, Fam152b, AI427858, AI850401, D15Wsu75e
	NCBI ID	28075
	MGI ID	106313
	Ensembl ID	ENSMUSG00000022472
	Human Ortholog	DESI1

Model Description

These mice carry loxP sites flanking target exons of Desi1 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Desi1 gene.

*Literature published using this strain should indicate: Desi1-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
