

Cdh12-Flox

Nomenclature	C57BL/6Smoc- <i>Cdh12</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Cdh12	Synonyms	Cdhb
	NCBI ID	215654
	MGI ID	109503
	Ensembl ID	ENSMUSG00000040452
	Human Ortholog	CDH12

Model Description

These mice carry loxP sites flanking target exons of Cdh12 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Cdh12 gene.

*Literature published using this strain should indicate: Cdh12-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
