

Btla-Flox

Nomenclature	C57BL/6Smoc- <i>Btla</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Btla	Synonyms	A630002H24
	NCBI ID	208154
	MGI ID	2658978
	Ensembl ID	ENSMUSG00000052013
	Human Ortholog	BTLA

Model Description

These mice carry loxP sites flanking target exons of Btla gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Btla gene.

*Literature published using this strain should indicate: Btla-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
