

Ccr5-Flox

Nomenclature	C57BL/6Smoc- <i>Ccr5</i> ^{em(flox)/Smoc}
Cat. NO.	NM-CKO-220619
Strain State	Sperm cryopreservation

Gene Summary

Gene Symbol Ccr5	Synonyms	AM4-7; CD195; Cmkbr5
	NCBI ID	12774
	MGI ID	107182
	Ensembl ID	ENSMUSG00000079227
	Human Ortholog	CCR5

Model Description

These mice carry loxP sites flanking exon 2 of *Ccr5*. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Ccr5* gene.

*Literature published using this strain should indicate: Ccr5-Flox mice (Cat. NO. NM-CKO-220619) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
