

Mefv-Flox

Nomenclature	C57BL/6Smoc- <i>Mefv</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Mefv	Synonyms	FMF, pyrin, TRIM20
	NCBI ID	54483
	MGI ID	1859396
	Ensembl ID	ENSMUSG00000022534
	Human Ortholog	MEFV

Model Description

These mice carry loxP sites flanking target exons of Mefv gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Mefv gene.

*Literature published using this strain should indicate: Mefv-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
