

Avpi1-Flox

Nomenclature	C57BL/6Smoc- <i>Avpi1</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Avpi1	Synonyms	esu, VIT32, mVIT32, AA410041, 2310008N12Rik
	NCBI ID	69534
	MGI ID	1916784
	Ensembl ID	ENSMUSG00000018821
	Human Ortholog	AVPI1

Model Description

These mice carry loxP sites flanking target exons of *Avpi1* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Avpi1* gene.

*Literature published using this strain should indicate: Avpi1-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
