

Gcgr-Flox

Nomenclature	C57BL/6Smoc- <i>Gcgr</i> ^{em1(flox)Smoc}
Cat. NO.	NM-CKO-2115175
Strain State	Repository Live

Gene Summary

Gene Symbol Gcgr	Synonyms	GR
	NCBI ID	14527
	MGI ID	99572
	Ensembl ID	ENSMUSG00000025127
	Human Ortholog	GCGR

Model Description

These mice carry loxP sites flanking target exon 4-14 of Gcgr gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Gcgr gene.

*Literature published using this strain should indicate: Gcgr-Flox mice (Cat. NO. NM-CKO-2115175) were purchased from Shanghai Model Organisms Center, Inc..
