

Nadk-Flox

Nomenclature	C57BL/6Smoc- <i>Nadk</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Nadk	Synonyms	BC004012, 4432404C02Rik
	NCBI ID	192185
	MGI ID	2183149
	Ensembl ID	ENSMUSG00000029063
	Human Ortholog	NADK

Model Description

These mice carry loxP sites flanking target exons of Nadk gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Nadk gene.

*Literature published using this strain should indicate: Nadk-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
