

Ddx42-Flox

Nomenclature	C57BL/6Smoc- <i>Ddx42</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Ddx42	Synonyms	RHELP, RNAHP, SF3b125, AW319508, AW556242, 1810047H21Rik, B430002H05Rik
	NCBI ID	72047
	MGI ID	1919297
	Ensembl ID	ENSMUSG00000020705
	Human Ortholog	DDX42

Model Description

These mice carry loxP sites flanking target exons of Ddx42 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Ddx42 gene.

*Literature published using this strain should indicate: Ddx42-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
