

Hcrt-Flox

Nomenclature	C57BL/6Smoc- <i>Hcrt</i> ^{em(flox)Smoc}
Cat. NO.	NM-CKO-220160
Strain State	Sperm cryopreservation

Gene Summary

Gene Symbol Hcrt	Synonyms	PPOX
	NCBI ID	15171
	MGI ID	1202306
	Ensembl ID	ENSMUSG00000045471
	Human Ortholog	HCRT

Model Description

These mice carry loxP sites flanking exon2 of Hcrt gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Hcrt gene.

*Literature published using this strain should indicate: Hcrt-Flox mice (Cat. NO. NM-CKO-220160) were purchased from Shanghai Model Organisms Center, Inc..
