

Txlna-Flox

Nomenclature	C57BL/6Smoc- <i>Txlna</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Txlna	Synonyms	Il14, Txln, AI425952, AW209241, 2600010N21Rik
	NCBI ID	109658
	MGI ID	105968
	Ensembl ID	ENSMUSG00000053841
	Human Ortholog	TXLNA

Model Description

These mice carry loxP sites flanking target exons of Txlna gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Txlna gene.

*Literature published using this strain should indicate: Txlna-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
