

Wnt5b-Flox

Nomenclature	C57BL/6Smoc- <i>Wnt5b</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Wnt5b	Synonyms	Wnt-5b, AW545702
	NCBI ID	22419
	MGI ID	98959
	Ensembl ID	ENSMUSG00000030170
	Human Ortholog	WNT5B

Model Description

These mice carry loxP sites flanking target exons of Wnt5b gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Wnt5b gene.

*Literature published using this strain should indicate: Wnt5b-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
