

Clec3b-Flox

Nomenclature	C57BL/6Smoc- <i>Clec3b</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Clec3b	Synonyms	Tna
	NCBI ID	21922
	MGI ID	104540
	Ensembl ID	ENSMUSG00000025784
	Human Ortholog	CLEC3B

Model Description

These mice carry loxP sites flanking target exons of Clec3b gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Clec3b gene.

*Literature published using this strain should indicate: Clec3b-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
