

Akt2-Flox

Nomenclature	C57BL/6Smoc- <i>Akt2</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Akt2	Synonyms	PKB, PKBbeta, AW554154, 2410016A19Rik
	NCBI ID	11652
	MGI ID	104874
	Ensembl ID	ENSMUSG00000004056
	Human Ortholog	AKT2

Model Description

These mice carry loxP sites flanking target exons of Akt2 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Akt2 gene.

*Literature published using this strain should indicate: Akt2-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
