

En1-Flox

Nomenclature	C57BL/6Smoc- <i>En1</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol En1	Synonyms	En-1, Mo-en.1, engrailed-1
	NCBI ID	13798
	MGI ID	95389
	Ensembl ID	ENSMUSG00000058665
	Human Ortholog	EN1

Model Description

These mice carry loxP sites flanking target exons of En1 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of En1 gene.

*Literature published using this strain should indicate: En1-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
