

Fah-Flox

Nomenclature	C57BL/6Smoc- <i>Fah</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Fah	Synonyms	swst
	NCBI ID	14085
	MGI ID	95482
	Ensembl ID	ENSMUSG00000030630
	Human Ortholog	FAH

Model Description

These mice carry loxP sites flanking target exons of Fah gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Fah gene.

*Literature published using this strain should indicate: Fah-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
