

Apob-Flox

Nomenclature	C57BL/6Smoc- <i>Apob</i> ^{em1(flox)Smoc}
Cat. NO.	NM-CKO-2101897
Strain State	Sperm cryopreservation

Gene Summary

Gene Symbol Apob	Synonyms	apob-48, AI315052, apob-100, Apo B-100
	NCBI ID	238055
	MGI ID	88052
	Ensembl ID	ENSMUSG00000020609
	Human Ortholog	APOB

Model Description

These mice carry loxP sites flanking exon 5-6 of Apob gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Apob gene.

*Literature published using this strain should indicate: Apob-Flox mice (Cat. NO. NM-CKO-2101897) were purchased from Shanghai Model Organisms Center, Inc..
