

Adk-Flox

Nomenclature	C57BL/6Smoc- <i>Adk</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Adk	Synonyms	Ak, AI255373, AI987814, 2310026J05Rik, 5033405D03Rik
	NCBI ID	11534
	MGI ID	87930
	Ensembl ID	ENSMUSG00000039197
	Human Ortholog	ADK

Model Description

These mice carry loxP sites flanking target exons of Adk gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Adk gene.

*Literature published using this strain should indicate: Adk-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
